Dave Tate's Free Squat Manual

We were going to put this with a bunch of other articles together into a Squat Manual that we could sell or give away as a promotional item. Being that it is Thanksgiving weekend and knowing VERY well if it was not for you we would not be here, let alone for 15 years, I made an executive decision and am publishing this as a big ass 16,000 word article. Bookmark and enjoy!

Have a Happy and Safe Holiday Season

- Dave Tate

Section 1: Master the Squat

When your squat stalls, everything comes into question – from the obvious things like setup, technique, and programming – to the more deep-seated factors, like whether you're just too much of a pussy to move any real weight.

Squat plateaus have caused many strong lifters to stop competing, or quit powerlifting entirely. After all, you can still build a powerful looking body without ever entering a power rack. But you'll never really be strong – stronger than the average guy, sure, but not the type of strong you dreamed of becoming when you first set foot in a gym.

RUSSIAN POLICE BATON

Daylight
SELF DEFENSE
Lesson 1

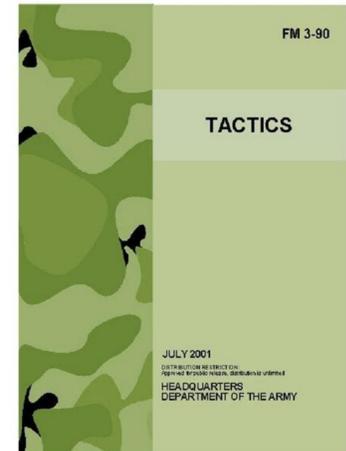

Classes focus on the use of self-defense using a police baton. These same steps can be applied using a rubber mace/baton, short stick, etc.

Techniques of Self-Defense: Stun & Police Baton

1. Position
To avoid an unexpected attack from a possible offender, we must take a stand face to it (Fig. 1), with the baton held, left wing or right side, holding the end, one of the possible ways.

2. Protection from Sticks
Protection is a basic element of the whole action, which has a logical conclusion. It is important to develop a special habit of protection from all types of sticks, because the way the attack by the offender, usually unpredictable.

2A. Protection Staff in Case of Direct Grip
Protection up (Fig. 2). The enemy does hit the top. Top left forward – to the left to withdraw from the trajectory of attack and with the strength to meet the hand of the enemy with a rod in the hands.
